Friday 18th September 2020

Dear Parent,

Mathswhizz

We are currently using Maths-Whizz, the online tutoring system, with a number of children in school. We are also able to offer subscriptions to the programme to parents for purchase at a significantly reduced price to that charged online.

Maths-Whizz Tutoring Plus (www.whizz.com) is aimed at 5-13 year olds and is recommended by the Specialist Schools and Academies Trust and the Independent Schools Association. It is already used by many thousands of schools and families both in the UK and internationally and has won several prestigious awards. We are writing to you because we believe the Maths-Whizz Online Tutor will have a significant impact on your child's confidence and numeracy standards and will, therefore, be very positive for us also.

At a fraction of the price of a real tutor, Maths-Whizz will enable you to participate in your child's learning. By subscribing to Maths-Whizz Tutoring Plus you will be linking your child's learning at home and in school - guaranteeing raised numeracy standards and confidence. You and your child will benefit from: -

- ☑ **24/7 student access** to a learning environment that is guaranteed, for the fraction of the price of a real tutor.
- ☑ **24/7 access for all parents** showing you how many minutes a week your child is engaging with the online tutor and which exercises they are progressing with.
- ☑ **The ability to share your children's success with us**
- ☑ **Parental weekly Email updates and live reports of your child's progress** and usage alerts as to how often your child uses Maths-Whizz – a snapshot of your child's happiness in numbers...
- ☑ **A dedicated expert helpline** to enable you to best support your child, and a regular newsletter.

We as a school will benefit from you adopting Maths-Whizz at home because your child will be supported in an environment that is collaborative and is therefore guaranteed to raise standards. **Students who use Maths-Whizz for 60 minutes a week improve their maths age, on average, by 1.6 years in the space of a year.**

We would like to offer this to you at the discounted rate of £40, rather than the original £149. We are able to purchase places on behalf of parents but need to do so in blocks of at least 10. Individual places cannot be purchased later in the year.

Healthy Schools

WOLVERHAMPTON EDUCATION COMMITTEE

Below you will find the views of some of our parents whose children already make good use of the programme. If you would like to purchase a subscription for your child please return the slip below and send payment via Sims Pay of £40 by 25th September 2020.

Yours sincerely,

Mrs J Nash

Our Parents Views:

- Very Good, we feel that this has helped our son in many ways, understanding and developing maths knowledge. This extra help has been very good.
- Excellent way of teaching maths.
- I think the Mathswizz Programme is great. To begin with I thought he would get bored of it but every lesson is different and it is a way of learning maths and educating with fun activities and lots of help if needed. Credits add up and mean a visit to the Mathswizz shop. A bonus!
- I truly believe that the Mathswizz Programme has helped my two children to increase their confidence in maths. They enjoy the graphics and the flexibility of being able to do several short sessions over a week. I also think the sticker and certificate rewards given in school have helped them both to focus!
- My son has enjoyed this programme. It has boosted his confidence in Maths.
- I think Mathswizz is very good; my son enjoys it. It helps maths to be more enjoyable and fun to do.
- Mathswizz has really given her confidence in maths. Great extra resources to build on work already done in school to reinforce learning in a consistent way. It makes maths learning more fun.

I would like a Mathswizz subscription for one academic year for my child _____ in Class _____.

Child's Date of birth : _____

I enclose a cheque for £40 payable to Christ Church Junior School.

My child is registered for Free School Meals and I would like them to be registered for a school funded place with no charge. I am committed to ensuring that my child uses the programme for 60 minutes per week

Signed: _____
